Our Company

What We Do

Connexus has been supplying and delivering communications and IT solutions for more than 10 years. From small primary schools and academies to large colleges, we work with you to ensure we tailor the right solution for you.

The way in which your pupils and staff work can be affected immensely by the efficiency of your communication infrastructure. Therefore, it's important to work with a supplier who understands your specific IT and Communication requirements.

Accreditations

As a business we are committed to delivering quality solutions for our customers. We have implemented and are ISO9001 and ISO27001 certified for all our business processes.

Avaya IP Phone System

Connexus provide and fully support telephony solutions within schools, academies & colleges adopting a scalable and flexible approach in line with the ever-changing demands within the Education Sector.

With in-depth knowledge and experience, Connexus can assist in providing the correct solution to meet these needs and requirements using innovation whilst appreciating the potential budget constraints that are in place.

By also holding a wealthy experience in IT environments, Connexus can identify opportunities to create a more unified solution to enhance smarter working and pupil learning.

Benefits

- Scalable & Reliable
- Boosts Productivity
- Easy Management
- Stronger Device Integration
- Collaboration
- IP Office Contact Center

Super-Fast Connectivity

With an ever-increasing amount of data traffic, a secure, carefully designed network for voice, data and web-based communications is vital.

Connexus implements and manages an unparalleled range of secure network connectivity services, ensuring optimum resilience and 24/7 support, all with a comprehensive SLA.

Connexus bespoke connectivity solutions will empower your business with stable network connections and high-quality user experience.

Benefits

- Up-to 10Gbps Connectivity
- Reliable & Super-Fast
- 24/7 Support with enhanced SLA
- Multiple Application delivery
- Managed Firewall & Security Options

WI-FI For Schools

Schools and colleges today rely on secure, fast Wi-Fi access. Pupils are seeing the educational benefits of Wi-Fi on a daily basis through the use of tablets and interactive whiteboards.

To achieve these benefits requires bandwidth, and a resilient, reliable internet connection. Yet many schools do not have the internet capability to meet the requirements of today's teaching methods, let alone to be prepared for new technologies of the future.

The schools, academies and colleges that have already installed Wi-Fi are using them to give staff and pupils the freedom to move around with devices, including laptops, tablets and smartphones.

Benefits

- More Collaboration
- Digital Resources
- Increase Interaction
- Administration Access
- Easy Management
- Student Reporting

Web Filtering

Security is a big part of Connexus' product portfolio and there is no other industry more reliant on staying safe than the Education Sector. Partnering with SonicWall, Connexus can tailor, apply and manage what information your learning environment should and shouldn't have access to.

Our web filtering service blocks inappropriate, unproductive and even illegal and malicious web content as well as providing intuitive reporting and management.

- Best in-class protection
- Granular content filtering controls
- Improved Network Protection
- Easy-to-use web-based management
- Scalable, cost-effective solution

Benefits

Easy to Manage
100% Cloud Based
SafeSearch Integration
Improved Network Protection
Full Control Over Accessibility of Web

The background of the slide features a photograph of two IT technicians in a server room. In the foreground, a man with dark hair and a beard, wearing a dark blue polo shirt with 'Tech' visible on the sleeve, is talking on a black corded telephone. He is looking towards the right. In the background, another technician is seated at a desk with multiple computer monitors, also working. The room has a clean, professional appearance with white walls and server racks visible in the distance.

Managed IT Services

We reduce the schools impact of IT failures by minimising their occurrence with our Proactive IT support and management solution.

As a Total Solutions Provider Connexus can manage your entire setup, from IT Infrastructure and Support to Connectivity, Phones and Printers.

Everything is managed, maintained and supported by our own specialist team with 24/7 support.

Security, networking, data protection and end user support we handle it all for a fixed monthly price, it's that simple.

Benefits

- 24x7 Performance Monitoring
- Scheduled Preventative Maintenance
- Network Health Review
- Real Time Optimisation
- Security and Backup Management
- Unlimited Remote Support

Managed Security

With an ever-evolving cyber landscape, schools are facing increased and more complex threats to their environments. From data breaches, to insider threats, to ransomware attacks, the list is endless.

Our managed security services includes prevention, detection and remediation. This robust multi-layered approach ensures we protect your corporate assets whenever they are vulnerable or exposed to the threat of attack.

Benefits

- Threat Management
- Vulnerability Management
- Incident Response
- Protective Monitoring
- Implement New Technology
- Flexible Services

Cloud Computing

Connexus are specialists in cloud computing solutions, from applications such as office 365 and public clouds such as Azure, to our private cloud solution built in tier III resilient datacentres offering all the benefits of public cloud with the security and control of private cloud.

Our agnostic approach to solution design ensures we align the right cloud solution to your business requirements, from design to implementation and ongoing management.

We specialise in scalable, secure cloud solutions that offer enterprise reliability to businesses of all size.

Benefits

- Reduce Onsite Costs
- Improves Productivity
- Scalability Options
- Increased Security
- Tier III Data Center
- Enhanced Performance

What Our Customers Say...

Foxmoor County Primary School

"I would recommend Connexus to any school looking for a prompt, reliable and cost effective IT and Telephony Solution"

St Johns Marlborough Academy

"Connexus have been fantastic since they updated our antiquated phone system to a brand new IP phone system. They really went the extra mile during the install to make sure everything went to plan within our tight schedule. Their customer service has been superb, and are always quick to assist with technical expertise."

**Richmond School
& Sixth Form College**
North Yorkshire

The Richmond School

"Dealing with Connexus has been a positive experience. They provided us with the best price quotation with the highest quality intentions, and they have delivered on these. Our new phone system is much more stable and user-friendly than our previous one."

**RENDCOMB
COLLEGE**
NURSERY • JUNIOR • SENIOR

Rendcomb College

"Connexus were sympathetic to our previous situation and were able to understand and meet our needs whilst re-utilising our current infrastructure in a most cost effective way"
